raymondchen.co.uk

Versatile multidisciplinary Graphic Designer skilled at crafting clear, engaging and visually compelling designs. Experienced in transforming technical or information-heavy content into accessible visual stories, working closely with teams and stakeholders to ensure successful delivery. Always seeking alternatives and new tools to take on fresh creative challenges.

PROFESSIONAL EXPERIENCE

Buro Happold - Junior Graphic Designer

January 2024 - September 2026

- Supported the Visual Communication team's design input within technical engineering related projects with a multi-disciplinary approach.
- Creative project output included data visualisation, PowerPoint slide decks, iconography and detailed technical diagrams.
- Collaborated and communicated closely alongside team members in order to deliver accurate brief deliverables on time.
- Worked closely to empathise with both internal and external clients to best understand their needs.
- Engaged in continuous learning and professional development, consistently enhancing new skills and refining design expertise.

Tapoly - Graphic Design Intern

August 2022 - May 2023

- Built graphical assets for Tapoly's in-house insurance system meeting key stakeholder/user needs.
- Utilised Figma to develop user interface mockups to present to stakeholders for testing purposes.
- Supported the design of branded print design such as two-pagers and banners for marketing events.

Break the Mould - Volunteer Graphic Designer

September 2021 - September 2022

- Designed engaging social media content & posters for the promotion of special charity events.
- Worked closely with marketing and social media teams to ensure successful delivery of planned online posts.
